

# How To Change The World

Now, Quickly, Peacefully

The Answer To World Peace  
And The Greatest Individual Freedom

The Answer:

**self-empathy** => individual freedom

=> **empathy** => cooperative & collaborative + genuine human drives

=> free, peaceful, thriving communities.

The Obstacles:

**ownership** => inequality

=> **means of exchange** => "earn or starve" & false human drives

=> power, manipulation, control

=> **leadership over others** => social disparity

=> **excessive competition** => anti-empathy.

How to make the change:

Step 1. Stop using money, all together now.

Step 2. Build self-empathy

Step 3. Interconnect with your community

Step 4. B.E. R.A.D.I.C.A.L.

**B**ehavior **E**mpathic (*not excessive competition*)

**R**esources are the common heritage of all life" (*not ownership*)

**A**ccess (*not means of exchange*), **D**istributed production (*not centralized*)

**I**n sync with nature (*not control over nature*), **C**onnected (*not isolated*)

**A**utonomy [leadership over self, individual freedom] (*not leadership over others*)

**L**ive and let live (*not "earn or starve"*).

When enough people, a critical mass (16%-18%) of the population, stop using money and any means of exchange, all at once, this will start a chain reaction where the few will no longer have the means to pay to enforce the continuation of the obstacles.

What to do right now:

- Build on your local **food life-cycle** on multiple layers.
- Spread the word to get critical mass.

**Food life-cycle** (soil to plate to soil): from organic soil, grow food, collect seeds, recycle food waste back to soil, grow food.

**Multiple layers:** at home, apartment, terrace, rooftop, yard, garden, community garden, lots, greenhouses, vertical farms, stack farming, local farms, regional farms.

**Genuine human drives:** individual freedom, purpose, abilities, curiosity, challenge, boredom, needs.

**False human drives:** greed, hoarding, monetary and material incentives, laziness, self is separate from others, ego (self-importance over others).
